

Come with me to insanity  
did you get your hand stamp  
for return to reality?

tectonic plates — slow — love —  
patience — mountains —  
emotion — profound — dignity  
bliss — excruciating enormity  
of intense emotions mingling  
meandering through the  
caverns of the macro-  
compilation of microbiology —  
split between sanity &  
insanity in apoplectic joy

All is not lost  
if you were to evaporate  
for your illusion has spun  
me into actualization

I am meaningful meaninglessness

the twisted gusts of  
air over the wheat field  
meander aimlessly  
with purpose —

the grand splendor of  
formless forms forming  
nothingness —  
an emptyfulness  
of fulfillless  
completelessness

air sculptures  
melting in the stillness  
of the anticipation of  
dimensionless movement (motion)  
unhinge  
into disjointed planes  
melting into the  
infinite and undivided  
timelessness of  
immortality

I am  
meaningful  
meaninglessness
